### TROUBLESHOOTING

- Cartridge Connectivity Issue -
- Remove cartridge and reattach lightly.
- Low Battery Indication - LED will flash 10X.
- Restricted Airflow - Preheat for 5 seconds before vaping.

## VAPING TIPS

Start low and go slow. Everyone has a different tolerance level, and it may take a few tries to find the perfect amount for you.

Take 1 or 2 draws from your vape and wait 20-30 minutes. It may take time to notice the full effects of your product.

Use responsibly. Never operate a motor vehicle while impaired.

## CAUTION

Battery is **NOT** waterproof.

**DO NOT** expose battery to direct sunlight.

**DO NOT** expose battery to freezing temperatures.

**DO NOT** tamper with battery.
